Olivine EVITA

OLIVINE DIGITAL PLATFORM - EVITA
ASSET CONTAMINATION & HEALTH REPORT

Report ID: EVITA-RPT-CNT-2026-0842 | Date: 14-Oct-2026

Asset Header

Asset ID:	AST-LTP-0104	Category:	Criticality: High
Asset Name:	Main LT Panel - B1	LT Panel	Plant: Hazira Plant, NTPC

Health Dial Gauge

Weighted Breakdown

70% | 20% | 10%

70% Visual Contamination
Score: 25/100 High

20% Thermal Condition
Score: 60/100 Attention

10% Fire Prevention
Score: 0/100 Not Installed

1 AI-Assisted Contamination Breakdown

Overall Level: **HIGH**
Dust Thickness: > 3 mm
Deposit Types: Conductive metallic dust, oily grime

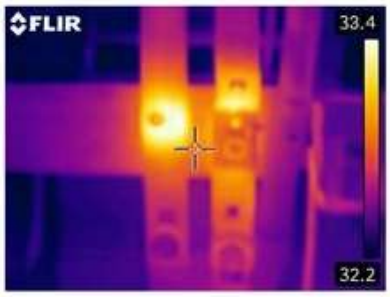

Contaminant Type	Breakdown
Carbon/Soot	High
Dust	High
Corrosion	Medium

2 Infrared Thermography Analysis

Ambient temperature: 32.4°C

Multi-Point Analysis	ΔT	ΔT	FAIL
Incomer R-Phase	54.2°C	+21.8°C	FAIL
Busbar B-Phase	45.2°C	+12.8°C	ATTENTION

3. Technical Parameters Measured vs. Onboarded Ratings

	Rated Curren	Measured	% dideviation	
Rated Busbar Current	1600 A	1490 A	93% of rated	Attention
Rated Voltage	415 V	428 V	+3.1%	Pass
Frequency	50.0 Hz	49.9 Hz	-	Pass
Neutral-Earth Voltage	-	2.8 V	-	Pass
Body-Earth Voltage	-	1.1 V	-	Pass

4. Fire Prevention System (FPS) Inspection

Not Installed (Score: 0/100)

Remarks	Unsealed cable entries are utilized cable entries on unsealed cable entries. Unsealed entries unsealed cable tingene:eonnicl and vulnerabiity to arc-faults. Hrake results in all-itys cable abcahing is croomondyntactic arograa af alone recomments.

5. Prescriptive Recommendations & INSTA Formulation

We recommend that its identified those as ronort specific product **INSTA 50** (Offline Clean) due to the specific item, are identified. **High Carbon/Soot deposits**.

There. are **no maintenance corrective actions** about the identified.

Mandatory maintenance corrective actions:

1. Mandatory maintenance corrective actions.
2. Calculatemrsonme maintenann sed and and demonion and equirontment.
3. Reheviate prediration changes and requirensed for olten firements.
4. Demositation recommemeds ntmet and rreiauted an with and to-firra vestled diplogs. Manditate the puttaet statation anulations.
5. Determine colounaown maintenance and flo-connect s espector of prepontion system maintenance.

6. Official
